SINGLE ROW GRID BOX

DESCRIPTION

The Greenwood Single Row Magnetic Grid Box is an inline magnetic separator used in gravity feed chutes for the extraction of ferrous particles within powder or granular materials being processed. Manufactured in stainless steel, the flanged housing enables easy installation. The drawer slides out completely, giving access to the magnets. Once the drawer is removed, the inner tubes containing powerful rare earth magnets, slide out causing the debris to fall off enabling easy and effective cleaning.

SINGLE ROW EASY-CLEAN GRID BOX WITH SQUARE TO ROUND TRANSITIONS

Removable drawer with sliding magnetic inner tubes for fast and easy contamination removal

SINGLE ROW EASY-CLEAN GRID BOX - NO TRANSITIONS

Crack and crevice free: all sealed stainless steel grid box for the food industry

Drawer slides out giving easy access to magnets

Tubes slide out causing debris
to fall off enabling easy cleaningmagnets

FEATURES

Easily installed
Direct access to magnets in chute
Extremely easy to clean
High intensity Rare Earth magnets
Available with flanges to suit square and round pipelines
Available with angle deflectors above and between the tubes for heavy contamination

SPECIFICATION

Standard height 350mm (with transitions)
Standard height 150mm (without transitions)
Can be manufactured to food industry standards
Manufactured to your specific dimensions
Available with several detachable drawers
Tube spacing set according to your product being processed and rate of flow
Magnet strength - standard up to 12,000 gauss, easy-clean tubes 10,000 gauss
